Spiritwalker: An Introduction to Shamanic Journeying

An introductory weekend experiential workshop in which the classic method of shamanic journeywork is taught. Utilizing the way of the shaman, we connect with the inner levels of reality, awareness and experience to find our spirit helpers and teachers, those inner sources who are intimately connected with our life purpose, and who provide us with power, protection, knowledge and support. The weekend includes work with empowerment of self and others and will conclude with a healing ritual.
